

# GA700

## AC Drives for Industrial Applications

www.yaskawa.eu.com

## Limitless possibilities

#### Incredibly reliable, easy to use, and powerful!

At YASKAWA, we know your time is valuable. That's why we've designed this variable speed drive to meet all your needs. Offering world class YASKAWA quality, along with intuitive interaction and high flexibility, our new GA700 is meant to easily handle nearly any application.

FLEXIBLE

#### **Discover the limitless possibilities of GA700!**

#### SUSTAINABLE

Connectivity Advanced Motor Control Customizable

Quick and Easy Setup Easy Installation

Functional Safety Global Certified Environmental Protection

EASY

With a flexible motor control, powerful and extendable functionality, and a broad power range up to 355 kW, the GA700 is the drive of choice for almost any task, ranging from simple transportation, presses and others up to complex systems with network connected drives or the demand for higher levels of safety.

Equally impressive to its robust, powerful and flexible design are innovative features like the tuning-less vector control, the haptic keypad with guided configuration and DriveWizard Mobile, the app for smart phones and tablets.

Combine all this with modern safety features and a variety of environmental solutions, and you will need to look no further than GA700 for all your variable speed needs.

# Our commitment to **you**

Flexibility, ease of use and a sustainable design for the best value proposition in your application

#### Effortless network integration

- Supports all major networks with a new cost effective network integration feature
- Maintain network communications even during loss of main input power

#### One for all

 Precise and tuning-less motor control with one drive controlling any induction, permanent magnet or synchronous reluctance motor

#### Quick & easy set-up

 Reduce set-up time with an intuitive keypad, navigation and start-up wizards

#### **Powerful configuration tools**

- DriveWizard<sup>®</sup> and DriveWorksEZ<sup>®</sup> are PC tools for drive management and logic programming
- DriveWizard<sup>®</sup> for drive management, start-up and failure analysis
- DriveWorksEZ<sup>®</sup> for extending functionality by logic programming

## Convenient set-up and monitoring

- Safe programming without main power connected
- Cloud-connected DriveWizard<sup>®</sup> Mobile app for drive management on smartphones and tablets.

### Integrated functional safety

 Increased safety and reliability with STO SIL3 functional safety

#### Meets global standards

- Local/global standards
- RoHS compliant

#### Flexible package design

Designed with flexibility to simplify installation and cabinet design

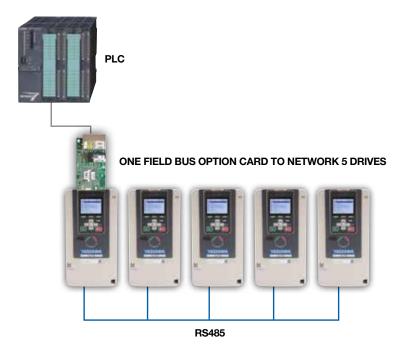

200 V class: 0.55 - 110 kW 400 V class: 0.55 - 355 kW

## Effortless network integration

GA700 drives support all the major industrial communications and connection topologies (ring, star, line, etc.) to adapt to various factory automation networks. Reduce wiring when connecting to an upper level controller or PLC through available built-in protocols and/or dedicated communication options.

## Network integration benefits/features:

#### Easy integration into your network

- · Supports all major networks and topologies
- Network compliance tested
- Network up to 5 drives with a single communication card

#### Cost savings with built-in protocols

- RS-485 MEMOBUS/Modbus protocol
  - 115.2 kbps communication speeds

#### Keep control during main power loss

- Embedded +24 VDC input control power standard
- Programming and monitoring without main power

#### **Cost effective integration**

Up to five GA700 drives can be accessed through only one fieldbus option card, thus providing a cost effective solution with reduced wiring effort.

#### Embedded +24 VDC input

When supplying the GA700 through the built in 24 VDC control power input, network communications can be maintained even during main power loss, thus allowing continuous monitoring and faster start up on power recovery.

### DeviceNet<sup>®</sup> EtherNet/IP<sup>®</sup>

NET

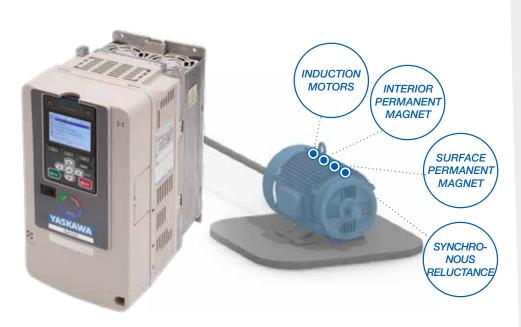

# One for all

0

The GA700 precisely controls induction motors, permanent magnet motors and synchronous reluctance motors providing versatility to run a variety of applications with just one drive. The times of complex motor set-up are over. With the new EZ vector mode, the GA700 can run all of these motor types without comprehensive tuning.

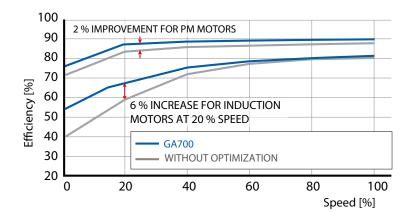

## Motor control benefits and features:

#### **Flexible motor control**

- Tuning-less with EZ vector
- Open/closed loop speed or torque control
- Induction/permanent magnet
  motors
- 590 Hz max. output frequency
- Zero speed control without encoder
- Synchronous reluctance motor control
- Motor speed control range in closed loop mode of 1:1500

#### **Energy savings**

• Automatic energy efficiency optimization function

#### Maximum efficiency

By introducing motor speed control as a replacement of gears, valves or dampers the GA700 unlocks great energy saving potential in various applications. In addition, the GA700 automatically optimizes the motor efficiency for any speed and load condition and minimizes overall losses.

GA700 lowers energy cost by running your application at maximum efficiency.

# Quick & easy set-up

The GA700 provides a user programming experience with an intuitivelydesigned keypad and tactile user interface. Self-guiding navigation menus and start-up wizards make the programming and set-up faster and easier than ever. With DriveWizard Mobile the GA700 can easily be managed and controlled from your smartphone or tablet.

#### **Mobile Device Connectivity**

Mobile device connectivity is achieved through using the built-in USB port or wireless communication with the Bluetooth  $^{\odot}$  LCD keypad option.

#### Copy function

Multiple sets of parameters can be stored and easily transferred (copied) to additional drives

••••••

#### **Hi-resolution display**

Contrast control offers clear and readable fulltext descriptions

#### Automatic backup function

••••••

Saves the current parameter settings after a period of user inactivity. After an incident, settings can be retrieved from the keypad in a couple of seconds.

#### **Advanced** keypad navigation

.....

Faster scrolling and function keys offer faster navigation and short-cuts reducing programming time

#### Keypad benefits and features:

#### **Reduce set-up time**

- Start-up wizard
- Favorite parameter/monitor function
- Copy function integrated into the keypad
- Parameter set is backward compatible with previous generation drive products
- Fast navigation
- Parameter description

#### Drive parameter management

- Storage of up to 4 drive parameter sets
- Data logging with real time stamp e.g. for fault analysis, load profile analysis etc. (up to 32 GB on a Micro SD card)
- Fault logging with real time stamp for better analysis
- Multiple parameter storage
- Automatic parameter back-up

#### Easy to use

- LCD keypad with Bluetooth® option
- Display contrast control
- Real-time clock with time stamp
- Tactile feel buttons
- Remote mounting of keypad using standard RJ45 extension cable

#### Start-up wizard

Reduce basic set-up time to minutes using the start-up wizard without any drive parameter knowledge

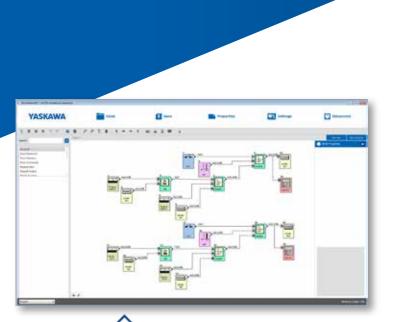

# Powerful configuration tools

DriveWizard<sup>®</sup> is an offline/online parameter and drive configuration tool. The easy and intuitive tool is used for set-up, maintenance and troubleshooting offering parameter editing, storing and file comparison as well as online trending using the highly functional oscilloscope feature.

# Customizable

The GA700 further enhances the programming experience with DriveWorksEZ<sup>®</sup>. DriveWorksEZ<sup>®</sup> offers an icon-based, drag-and-drop graphical environment to add programmable functions that can tailor the drive to meet various machine and application requirements without the cost of external controllers, such as PLCs or additional controller hardware options.

#### Easy programming

DriveWorksEZ<sup>®</sup> is the intuitive graphical programming environment for the GA700. Create customized functions for your application in shortest time by drag and drop function blocks. The online diagnosis tool supports testing.

DriveWizard® and DriveWorksEZ® are registered trademarks of YASKAWA

## Application toolbox benefits and features:

#### Drive management with DriveWizard®

- Parameter management
- Online manual
- Report generation and export data
- 6 channel scope function
- Real-time monitoring
- Access through USB, EtherNet/IP, Modbus TCP/IP, or PROFINET
- Automatic parameter conversion from previous series drives

## Customizable with DriveWorksEZ®

- Icon-based graphics
- Drag and drop graphical interface
  - Select from 300+ function blocks
  - Access to I/Os, network interfaces, drive parameters and monitors
  - Logic/math functions
  - Timers/counters
  - Subroutine creation
  - Up to 200 connections

# Convenient set-up and monitoring

Using DriveWizard Mobile the GA700 can be set up, controlled and monitored from your smartphone or tablet easily and intuitively. Connected with the YASKAWA Drive Cloud, DriveWizard Mobile provides quick access to latest product manuals and your drive data, anywhere and anytime.

#### DriveWizard<sup>®</sup> Mobile app

DriveWizard<sup>®</sup> Mobile turns your smartphone or tablet into a control center for your GA700 drives. It allows parameter setup and drive control but also back up your drive data locally on your smart device or in the YASKAWA Drive Cloud. With DriveWizard<sup>®</sup> Mobile all your information for parameter setup and troubleshooting of your GA700 drives are in your pocket when you need them.

Scanning the drive QR code can provide easy access to drive information and status with the DriveWizard Mobile application software.

#### **YASKAWA Drive Cloud service**

With the YASKAWA Drive Cloud, we provide free drive registration access to latest product information and online storage for parameter and application backup data. YASKAWA Drive Cloud is the easy and safe way to keep a record of your drive data and to have them available whenever you need them.

#### DriveWizard® Mobile app

- Quick and easy drive management apps for smart devices
- Easy USB OTG cable or Bluetooth<sup>®</sup> connection
- Drive registration via cloud by scanning QR code
- Paperless and easy access to latest online manual and troubleshooting
- Archive and retrieve parameter settings with comments on your smart device
- Carefree data recovery: Parameter back-up/retrieval anytime via cloud service for registered drives

#### **YASKAWA Drive Cloud service**

- Online manual
- Complimentary storage for parameter backup and application records
- Convenient drive data storage accessible anywhere
- Direct access to your personal GA700 data package

## Flexible and reliable

No matter if you put the drive in a control cabinet or at a wall, in clean or harsh environment, the flexible package design of the GA700 allows a reliable operation under various environmental conditions.

#### **Minimum footprint**

The small footprint of the GA700 provides best usage of available panel space. Optimized heat management results in an up to 50% smaller footprint compared to previous drives.

#### **Coated board protection**

Coated PCBs as standard protect the electronics from dust or humidity and ensure reliable operation even in a harsh environment (IEC 60723-3-3, 3C2, 3S2).

#### Side-by-side mounting

The GA700 can be mounted side-by-side with bottom entry wiring to reduce cabinet size.

## Enhanced product benefits and features:

#### Easy to install and maintain

- IP20 standard
- NEMA Type 1 kit optional
- NEMA Type 12/IP55 protected heatsink
- Coated boards
- Side-by-side mounting
- Built-in braking transistor (up to 90 kW)

#### **Reduce harmonics and emissions**

- Built-in EMC filter, possible to disable
- Built-in DC reactor (22 kW (HD) and above)

Outside of enclosure

#### Easy external back heatsink mounting

The GA700 with a integrated flange design offers easy installation when mounting the heatsink outside the cabinet to reduce cabinet size and cooling equipment. In addition, the factory optional Type 12/IP55 heatsink design can provide greater protection from dust particles while reducing cooling requirements resulting in smaller cabinets.

**Horizontal mounting** 

The GA700 can be mounted horizontally up to 90 kW (ND).

Mounting for external heatsink

## Integrated functional safety

With the built-in dual channel STO (safe torque off) circuit and EDM signal (electronic device monitor) the GA700 provides the right tools for an easy integration of emergency stop functions into machines, even when higher levels of safety are required.

## Functional safety benefits and features:

#### **Risk reduction made easy**

- STO with SIL3/PLe according to IEC 61800-5-2/IEC 61508/ISO 13849
- EDM monitor
- Lower number of parts reduces installation effort while increasing reliability
- TÜV Süd certified

#### **Embedded functional safety**

The built-in STO replaces mechanical emergency relays. The electronic sequencing improves reliability and cost compared to mechanical components.

# Specifications

| <b>Operating Environment</b> |  |  |  |  |  |  |  |
|------------------------------|--|--|--|--|--|--|--|
| Ambient temperature          | -10 to +50 °C (IP20), -10 to +40 °C (NEMA 1), up to +60 °C with derating   |  |  |  |  |  |  |
| Storage temperature          | -20 to +70 °C  |  |  |  |  |  |  |
| Humidity                     | 95 % RH or less (non-condensing)   |  |  |  |  |  |  |
| Altitude                     | Up to 1000 m without derating, up to 4000 m with derating.   |  |  |  |  |  |  |
| Vibration/Shock              | 10 to 20 Hz: 9.8 m/s <sup>2</sup><br>20 to 55 Hz: 5.9 m/s <sup>2</sup> (2004 to 2211; 4002 to 4168)<br>2 m/s <sup>2</sup> (2257 to 2415; 4208 to 4675), according to EN60068-2-6 |  |  |  |  |  |  |
| Protection design            | IP20 standard, NEMA Type 1-Kit (optional), IP55/NEMA Type 12 external heatsink (factory option)  |  |  |  |  |  |  |
| Mounting                     | Upright / Side-by-side (2004 to 2082; 4002 to 4044), Horizontal (2004 to 2257; 4002 to 4140)   |  |  |  |  |  |  |
| Environmental conditions     | IEC 60721-3-3, Class 3CS (chemical gases), Class 3S2 (solid particles)   |  |  |  |  |  |  |
| Conformity / Standards       |  |  |  |  |  |  |  |
| Standards                    | CE, UL, cUL, EAC, RoHS   |  |  |  |  |  |  |
| Functional safety            | Safe Torque Off (STO) according to IEC 61800-5-2, tested according IEC/EN61508 (SIL3) and ISO/EN13849-1 (PI e, Cat. 3); TÜV Süd certified  |  |  |  |  |  |  |
| Power Ratings                |  |  |  |  |  |  |  |
| Overload capacity            | 150 %/1 min. (HD, heavy duty) or 110 %/1 min. (ND, normal duty)  |  |  |  |  |  |  |
| Rated voltage                | 200 to 240 VAC, -15 to +10 %, 50/60 Hz +/-5 %  |  |  |  |  |  |  |
| nated voltage                | 380 to 480 VAC, -15 to +10 %, 50/60 Hz +/-5 %  |  |  |  |  |  |  |
| Capacity range (ND)          | 200 V class: 0.55 to 110 kW  |  |  |  |  |  |  |
| Capacity range (ND)          | 400 V class: 0.55 to 355 kW  |  |  |  |  |  |  |
| Output frequency             | 0 to 590 Hz  |  |  |  |  |  |  |
| Carrier frequency            | 8 kHz (HD) or 2 kHz (ND); max. 15 kHz  |  |  |  |  |  |  |
| DC link choke                | built-in (2110 to 2415; 4060 to 4675)  |  |  |  |  |  |  |
| Braking transistors          | built-in (2004 to 2313; 4002 to 4168)  |  |  |  |  |  |  |
| Control / Programming        |  |  |  |  |  |  |  |
| Control inputs               | 8 digital (sink/source), 3 analog (current/voltage), 1 pulse (HTL, max. 32 kHz), 24 VDC power supply for control cards   |  |  |  |  |  |  |
| Control outputs              | 4 digital, 2 analog (current/voltage), 1 pulse (HTL, max 32 kHz), 24 VDC for external sensors available (max. 150 mA)  |  |  |  |  |  |  |
| Virtual input/output         | For connection of I/O functions without physical wiring  |  |  |  |  |  |  |
| antuar input/output          | Multiple assignment of I/O functions for easier wiring   |  |  |  |  |  |  |
| Programming interface        | Mini-USB on the front cover; digital operator with Bluetooth® (optional)   |  |  |  |  |  |  |
| Operator                     | LCD with copy function for several parameter sets, real time clock, data logging, Bluetooth <sup>®</sup> (optional)  |  |  |  |  |  |  |

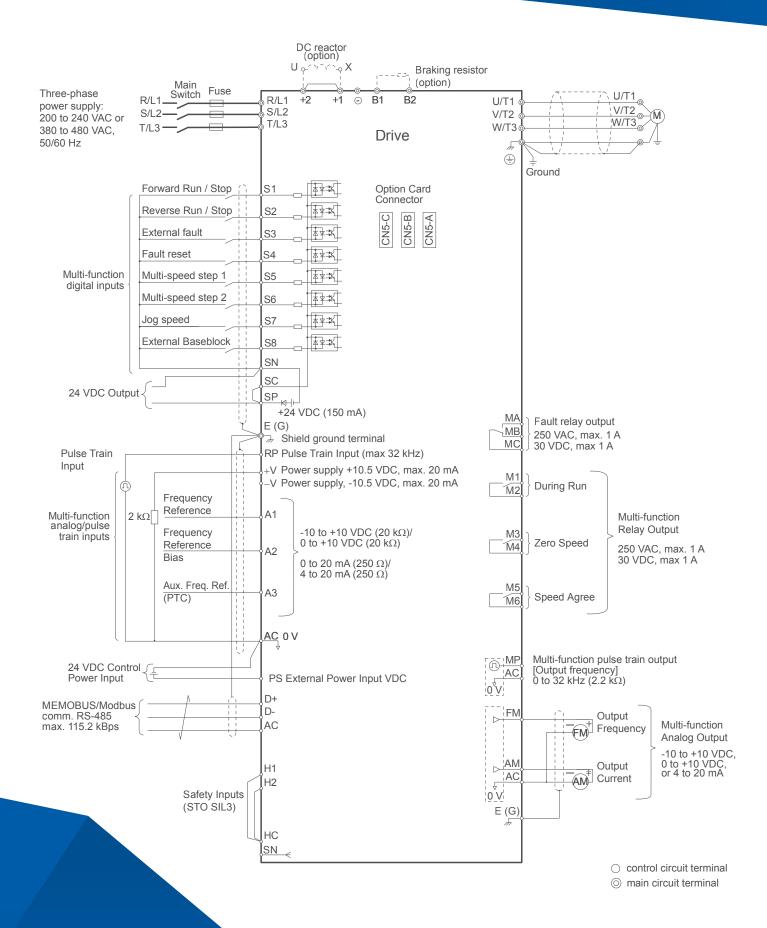

# Specification overview

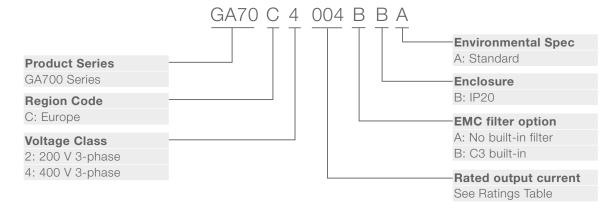

| Motor Control                 |   |                           |  |  |  |  |  |
|-------------------------------|---|---------------------------|--|--|--|--|--|
| Motor types                   | Induction Motor (IM), Permanent Magnet Motor (IPM/SPM), Synchronous Rel   | uctance Motor (SynRM)     |  |  |  |  |  |
| Control methods               | V/f and Vector control with/without encoder, EZVector   |                           |  |  |  |  |  |
